## Report (RTF) Window

March 7, 2025

***Notice***

Information in this document is subject to change without notice and does not represent a commitment on the part of Vibrant Technology. Except as otherwise noted, names, companies, and data used in examples, sample outputs, or screen shots, are fictitious and are used solely to illustrate potential applications of the software.

***Warranty***

Vibrant Technology, Inc. warrants that (a) the software in this product will perform substantially in accordance with the accompanying documentation, for a period of one (1) year from the date of delivery, and that (b) any hardware accompanying the software will be free from defects in materials and workmanship for a period of one (1) year from the date of delivery. During this period, if a defect is reported to Vibrant Technology, replacement software or hardware will be provided to the customer at no cost, excluding delivery charges. Any replacement software will be warranted for the remainder of the original warranty period or thirty (30) days, whichever is longer.

This warranty shall not apply to defects resulting from improper or inadequate maintenance by the customer, customer supplied software or interfacing, unauthorized modification or misuse, operation outside of the environmental specifications for the product, or improper site preparation or maintenance.

In the event that the software does not materially operate as warranted above, the sole remedy of the customer (and the entire liability of Vibrant Technology) shall be the correction or detour of programming errors attributable to Vibrant Technology. The software should not be relied on as the sole basis to solve a problem whose incorrect solution could result in injury to a person or property. If the software is employed in such a manner, it is at the entire risk of the customer, and Vibrant Technology disclaims all liability for such misuse.

NO OTHER WARRANTY IS EXPRESSED OR IMPLIED. VIBRANT TECHNOLOGY SPECIFICALLY MAKES NO WARRANTY OF ANY KIND WITH REGARD TO THIS MATERIAL, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANT ABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

THE REMEDIES PROVIDED HEREIN ARE THE CUSTOMER'S SOLE AND EXCLUSIVE REMEDIES. VIBRANT TECHNOLOGY SHALL NOT BE LIABLE FOR ANY DIRECT, INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES IN CONNECTION WITH THE FURNISHING, PERFORMANCE, OR USE OF THIS PRODUCT, WHETHER BASED ON CONTRACT, TORT, OR ANY OTHER LEGAL THEORY.

***Copyright***

The software described in this document is copyrighted by Vibrant Technology, Inc. or its suppliers and is protected by United States copyright laws and international treaty provisions. Unauthorized reproduction or distribution of this program, or any portion of it, may result in severe civil and criminal penalties, and will be prosecuted to the maximum extent possible under the law.

You may make copies of the software only for backup or archival purposes. No part of this manual may be reproduced or transmitted in any form or by any means for any purpose without the express written permission of Vibrant Technology.

## Report (RTF) Window

Report (RTF) Window.

This chapter contains descriptions of the commands in the Report (RTF) Window.

A Report (RTF) Window is a text and graphics processor that can be used to document a Project.

A Report (in RTF format) can be imported from and exported to MS Word for further enhancement.

### Menu Commands

Menu command descriptions in this chapter are ordered by command menu (*from left to right*), and then by the commands in each menu (*from top to bottom*).

Each menu command is executed by choosing it from its command **menu**, or by *clicking* on its **Tool** if it is on a **Toolbar**.

### File Menu

#### File | Save Report

Saves the Report file into the *current Project file* on disk.

#### File | Save Report As

Saves a **copy** of the Report file with a *new name* into the *current Project file* on disk.

#### File | Import Report

Imports a Report file from a disk file in an external file format.

Report files can be imported in **text (.TXT)** format or **rich text format (.RTF)**.

**File | Export Report**

Exports the Report file to a disk file in an external file format.

Report files can be exported in **text (.TXT)** format or **rich text format (.RTF)**.

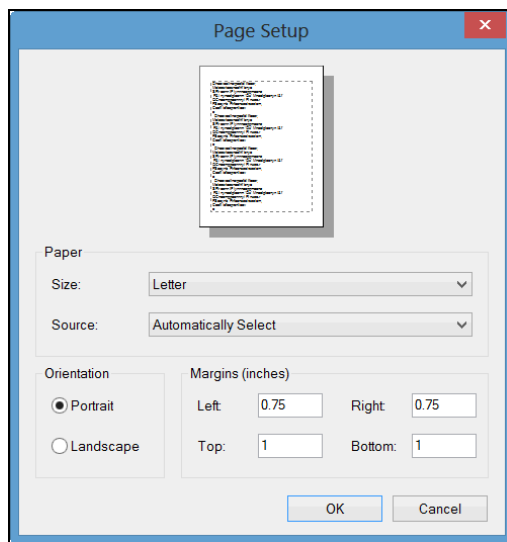

**File | Print**

Prints the current Report file on the Windows printer.

The installed Windows printer **must be a graphics printer** to use this command.

**Page Setup**

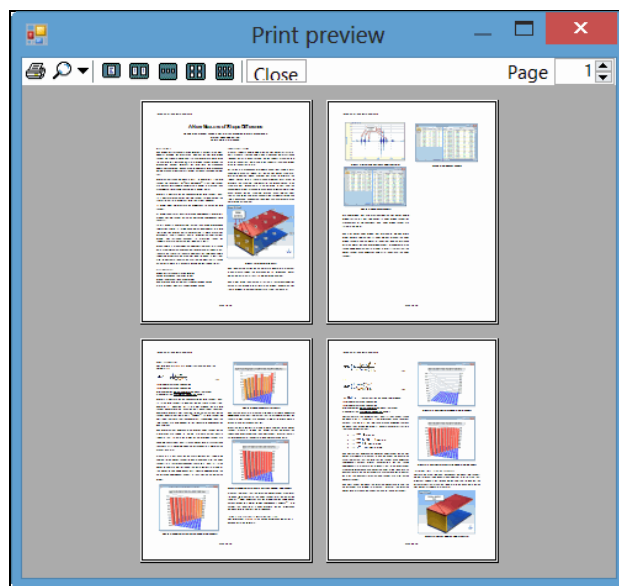

Opens the following dialog box for formatting pages in the Report document.

*Report Page Setup Dialog.*

**Print Preview**

Opens the following dialog box for previewing the Report document before printing it.

*Report Print Preview Dialog.*

**File | Close Report**

Closes the Report file window.

Any window can also be closed by *clicking* on the close button  in the *upper right corner* of the window.

**Opening a Window**

To open a Report (RTF) Window in the Work Area,

- Double click on its name in either pane of the *Current Project Panel*.
- Or right click on its name in either pane of the *Current Project Panel* and execute Open from the menu.

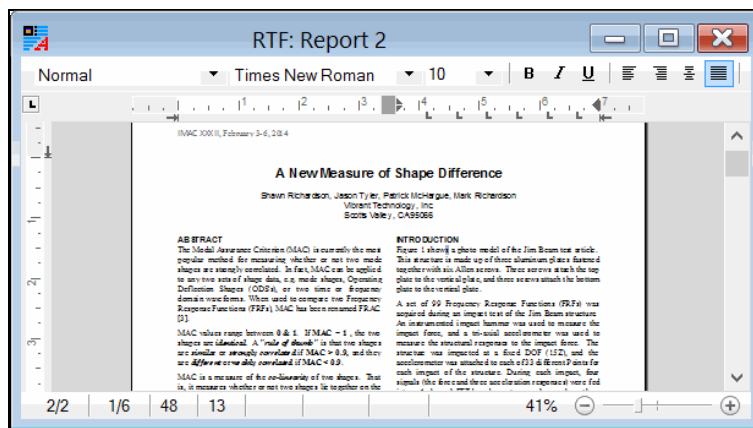

**Display Menu****Display | Center Report (RTF) Window**

Centers the Report (RTF) Window in the **Work Area** of the MEscape window.

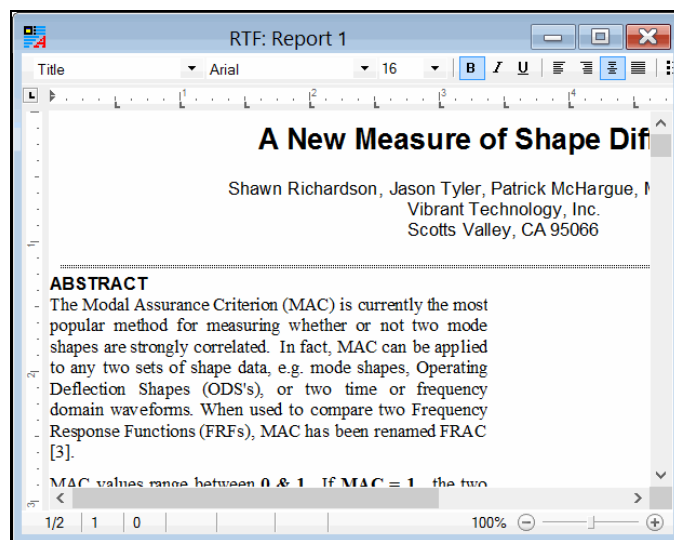

*Repeated* execution of this command alternately centers the window and returns it to its former position.

**Display Page Layout and Normal**

These two commands display the document either in **Page Layout** format or in **Normal** format. These two formats are shown below.

*Page Layout Format.*

*Normal Format.*

## Edit Menu

### Edit | Undo

Restores the window to the state it was in *before* the *last* operation.

This command can be used repeatedly to undo the last **N operations**, **N = Number of edits saved**

- The Number of edits saved is changed on the General tab in the Project | Options dialog box in the MEscape window
- **Hold down the Ctrl key and press the Z key** to also execute this command

### Edit | Select All

*Selects all* the text & graphics in the Report document.

- **Hold down the Ctrl key and press the A key** to also execute this command

### Edit | Select None

*Un-selects all* the text & graphics in the Report document.

### Edit | Cut

Deletes the *selected* text & graphics from the Report document onto the Windows Clipboard.

- **Hold down the Ctrl key and press the X key** to also execute this command

### Edit | Copy to Clipboard

Copies the *selected* text & graphics from the Report document onto the Windows Clipboard.

- **Hold down the Ctrl key and press the C key** to also execute this command

### Edit | Paste

Pastes the text & graphics from the Windows Clipboard into the Report document at the cursor position.

- **Hold down the Ctrl key and press the V key** to also execute this command

### Edit | Delete

Deletes the *selected* text & graphics from the Report document.

### Edit | Find Next

Opens the following dialog box for finding text in the Report document.

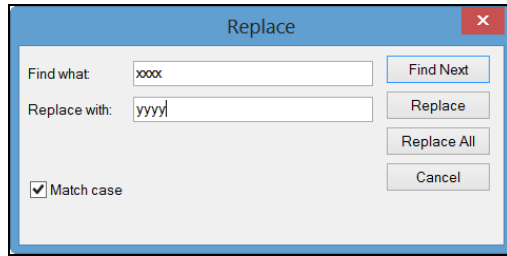

*Find Next Dialog.*

### Edit | Replace

Opens the following dialog box for finding and replacing text in the Report document.

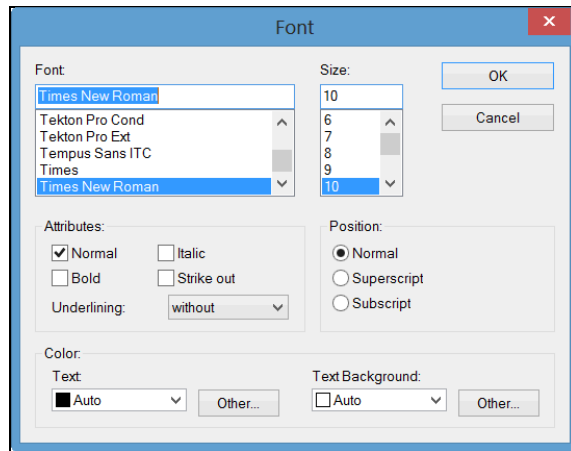

## Format Menu

### Format | Font

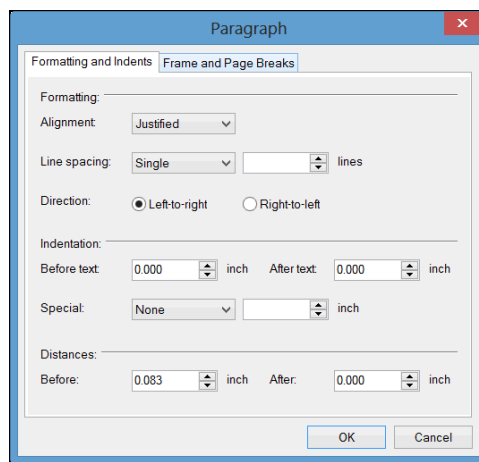

Opens the Font dialog box, which is used to change the font of *selected* text in the document.

*Fonts Dialog Box.*

### Format | Paragraph

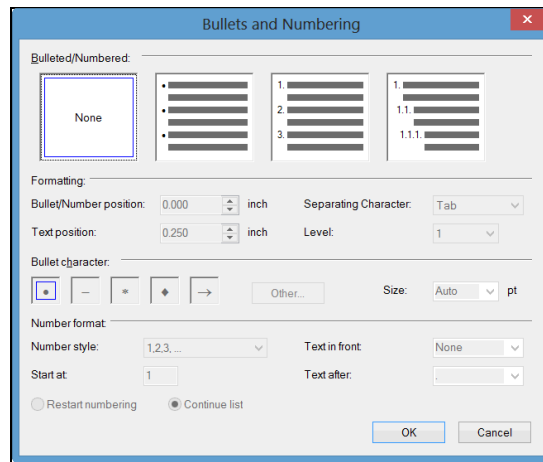

Opens the Paragraph dialog box, which is used to format paragraphs of *selected* text in the document.

*Paragraph Dialog Box.*

### **Format | Bullets and Numbering Properties**

Opens the Bullets and Numbering dialog box, which is used for adding bullets or numbering to lines of text in the document.

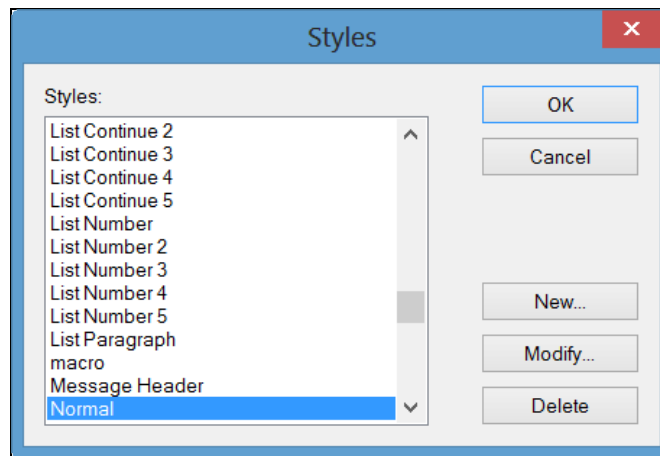

*Bullets and Numbering Properties Dialog Box.*

All the other commands in the **Bullets and Numbering** menu are used to edit the bullets and numbering on lines of text.

### **Format | Styles**

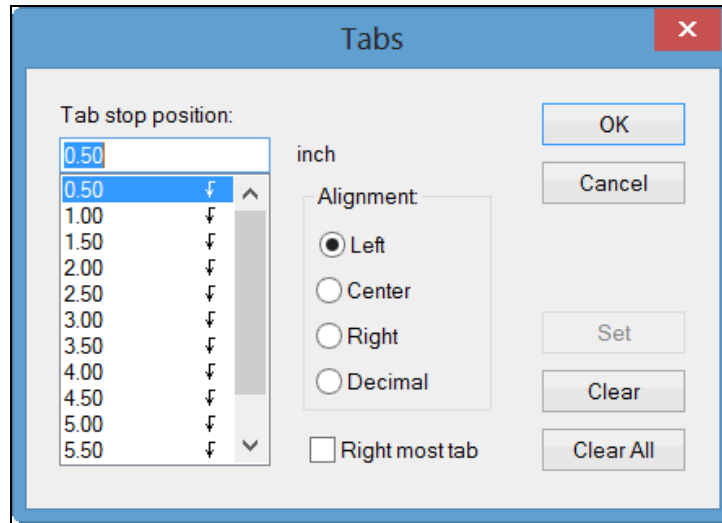

Opens the Styles dialog box, which is used to change the style of *selected* text in the document.

*Styles Dialog Box.*

**Format | Tabs**

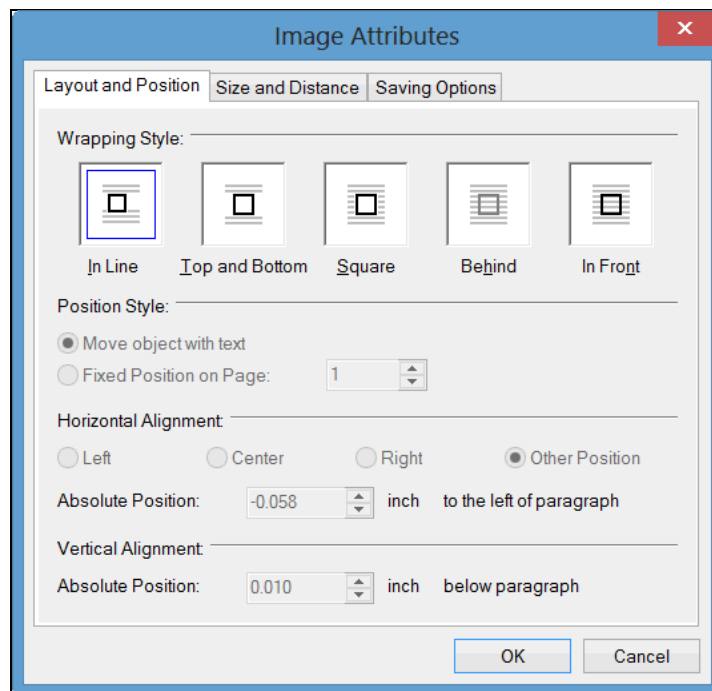

Opens the Tabs dialog box, which is used to change the text tabbing of *selected* text in the document.

*Tabs Dialog Box.*

**Format | Image**

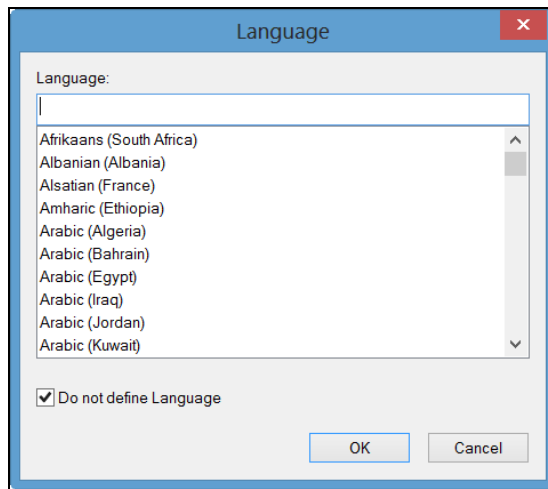

Opens the Image dialog box, which is used to change the format and text wrapping of a *selected image* in the document.

*Image Dialog Box.*

### Format | Language

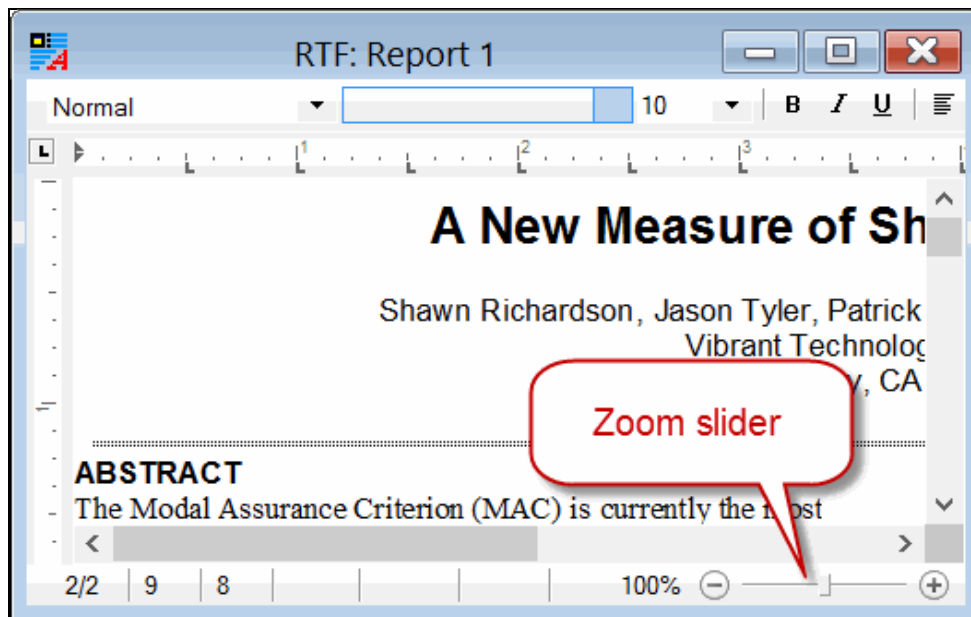

Opens the Language dialog box, which is used to change the language used in the document.

*Language Dialog Box.*

### Zoom Menu

The commands in this menu zoom the Report display by percentages, from 25 to 300 percent. The Report display is also zoomed by using the *Zoom slider in the lower right corner* of the window.

*Zoom Slider.*

## Insert Menu

### **Insert | Page Break**

Inserts a Page Break following the current cursor position in the document.

### **Insert | File**

Inserts text from a disk file into the document following the current cursor position.

### **Insert | Picture from File**

Inserts a picture into the document following the current cursor position

### **Insert | Wrapping Page Break**

If text is wrapped around a picture, this command will insert a page break following the wrapped text.

## Table Menu

The commands in this menu are used for constructing a Table within the document.

### **Table | Insert Table**

This command opens the following dialog box from which a new Table can be defined and inserted into the document at the current cursor position.

The dialog box is titled "Insert Table" and contains the following settings:

- Table size: (empty)
- Number of columns: 5
- Number of rows: 4
- Column width: (empty)
- Radio buttons:
  - AutoFit to page width
  - Fixed column width: (empty) inch
- Options:
  - Header
  - Allow rows to break across pages

*Table Dialog Box.*

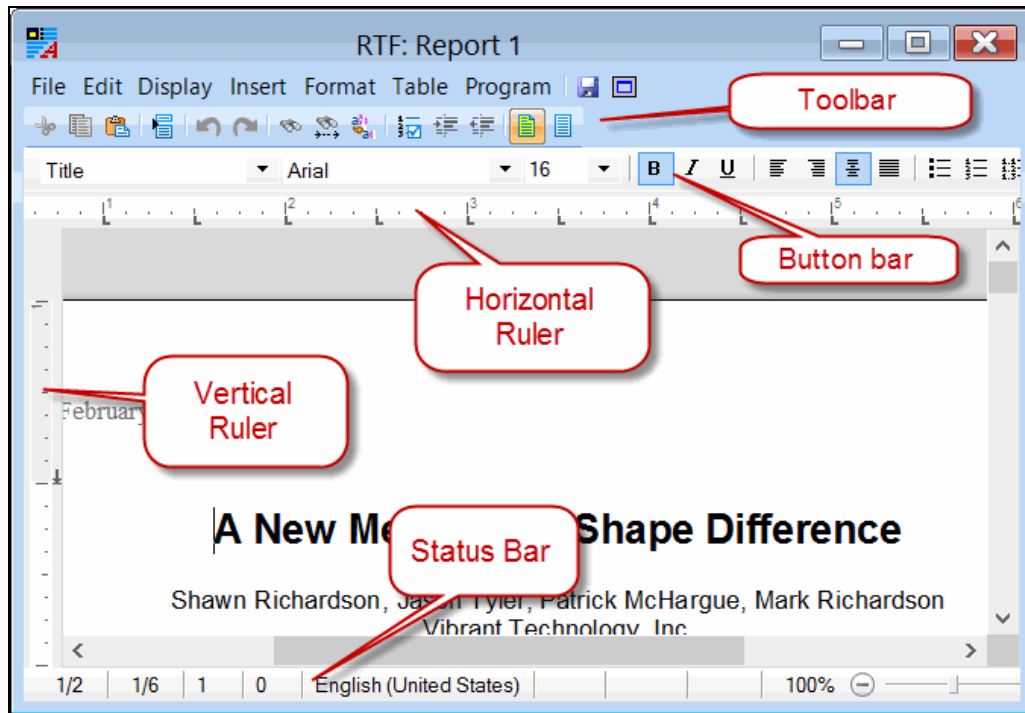

All the remaining commands in this menu are used for editing a Table after it has been inserted into the document.

## Form Layout Menu

The commands in this menu *justify* all the Report text and graphics to the **Left** side or to the **Right** side.

## Controls Menu

The commands in this menu show and hide Toolbars and Rulers in the Report (**RTF**) Window.

*Report Controls.*

## Script Menu

### **Script | Add New Line**

Adds a new line to a Report starting at the *current line*.

### **Script | Add Text**

Adds text to a Report starting at the *current line*.

#### Parameter

- Text to Add

### **Script | GoTo Line**

Displays a line of text in a Report.

#### Parameter

- Line number to display
